

Geography

Africa!

Our theme for the Spring term is called:

African Adventure!

We will be studying the physical and human features of some of the countries within this continent. The children will learn about climate, biomes, African animals, tribal life, music, culture and compare and contrast daily living in Africa to the UK. There will be a range of creative activities to complete, allowing children to broaden their skills and explore their talents. We hope to have some exciting visitors join us to bring some of these activities to life. We are sure that your child will enjoy learning about this theme, as we take them on an African Adventure!

Science

Spring 1: Light

We will be learning about light sources, reflective surfaces, opaque, translucent and transparent materials, and how shadows are formed and change.

Spring 2: Plants

We will be learning about the parts of a plant, what they need to grow, and the life cycle of plants.

English

We will be reading a number of texts, including:

Meerkat Mail by Emily Gravett, *The Hunter* by Paul Geraghty, and *The Ugly Five* by Julia Donaldson.

These books will form the inspiration for a range of English writing activities this term.
